## **Archbishop of Great Britain says clerics' education, outreach to general public among his priorities**

Days before his enthronement as the new Archbishop of Great Britain and Thyateira, His Eminence Nikitas, spoke with the media outlet «Orthodoxos Kosmos», where he cited his priorities for the Archdiocese.

Nikitas pointed to continuing education and training for Orthodox clerics as among his foremost priority, as well as better explaining and presenting Orthodoxy and the Orthodox Church to the wider public.

«...Many people have heard of us, but they know nothing about us. We must open our doors and share what we have,» he emphasized.
