Palestinian children in Gaza are forced to live on 245 calories a day

4 days after 7 international aid workers from the World Central Kitchen were killed by a deliberate Israeli Air strike on the armored cars they were traveling in, Oxfam releases report stating that “Palestinians in northern Gaza are forced to survive on 245 calories per day, less than a can of beans”

The Ambassador of the State of Palestine to the Hellenic Republic Yusef Dorkhom states: “the Deliberate murder of the 7 International Aid workers of the World Central Kitchen was well planned with the aim to discourage International aid organizations from transporting and distributing food aid in Gaza for the 2.3 million Palestinians.” And added “Israel is committing Genocide in Gaza, forcing famine and thirst to maximize the number of Palestinians Killed in Gaza under the silence of the International community.”

Ambassador Dorkhom calls on the International community to save the lives of the

Palestinian Children, by sending more humanitarian Aid to the besieged Gaza and to force Israel the occupying power to open more safe routes that allow the delivery without hindrance or attacks the much needed aid to reach the besieged Palestinians in Gaza.

On the 182nd day of the Israeli Genocide in Gaza the number of Palestinian Martyrs surpasses 33,037 killed with 8,000 still missing under the rubble and at least 75,668 injured.
