Orthodox Metropolis of Korea – The Winter Student Camp of 2025

With God’s help, the winter camp of our Metropolis started on Tuesday 11 February in the town of Chuncheon.

Students from the parishes of the Orthodox Metropolis of Korea such as Seoul, Incheon, Jeonju and Ulsan participated.

The central theme of the camp was: “Let us love Christ more, because Christ is everything”. This important and meaningful theme for the spiritual life of Christians provided rich material for the Bible Study sessions at the camp, which included talks followed by interesting discussions.

The first two days were successfully completed. From the very first moment there was great enthusiasm among the participants and it proved once again how important the camp is for strengthening the bonds of Christian friendship and brotherhood among the young students.
