

Children and persons with disabilities have priority to venerate holy relics at Bucharest Patriarchal Cathedral

Families with children and persons with disabilities have priority in honouring the holy relics placed for veneration these days at the Patriarchal Cathedral in Bucharest.

The mentioned categories are asked to move near the baldachin and ask the gendarmes and the nearby organizers to facilitate access to venerate the holy relics.

Every year, on the feast of Saint Demetrios the New, pilgrims from all across Romania are coming to Bucharest to take the Saint's blessing bringing their children with them.
