Church liturgies across the world a couple of clicks away

We may not be able to leave our homes and we cannot go to our local churches, but we can appreciate services around the world in real time.

The beauty of technology in this modern age is the ability to connect with almost every part of the world with just a couple of clicks.

73-year-old Sotiria Zervos says this has been a ray of light in dark times.

She says, “I feel better knowing I can still somehow participate in my Easter traditions with the church. It is such a big part of my life and I can still feel my connection to God although I’m not physically in the church.”

Since travelling is currently not an option, let the services come to you!

Here are some Orthodox churches across the world streaming liturgies in real time. Do not forget to check the timezones!
