Greek Orthodox Metropolis of San Francisco launches expanded COVID-19 resources page

In response to the growing need for resources for parishes and faithful during the COVID-19 pandemic, the Greek Orthodox Metropolis of San Francisco has developed a dedicated page for this information which highlights Worship, Technology, Finance and Ministries.

“We are blessed with robust ministries in our Metropolis which have collaborated to compile these resources for our parish leadership and for use in the homes of our faithful,” stated His Eminence Metropolitan Gerasimos. “We recognize this pandemic has brought forth many challenges, but we wanted to use this as an opportunity to expand our offering in the areas of spiritual support, financial guidance, and educational programs. This is a difficult time of separation from our parishes, friends and family, but we must continue to pray for one another, and especially for all those who are suffering from this illness.”

Additional information will be updated on the website so be sure to visit this page for new resources in the coming week.
