Greek Orthodox Archdiocese of America Online COVID-19 Resource Center

New York – The Greek Orthodox Archdiocese of America launched an updated COVID-19 Resource Center today. In addition to serving as a platform for hosting videos, blogs, downloadable materials, and other content created by the various departments and ministries of the Archdiocese, the Resource Center will provide valuable information and updates regarding the COVID-19 pandemic in the United States.

Visitors to the site will also find both written and video messages from His All-Holiness Ecumenical Patriarch Bartholomew and His Eminence Archbishop Elpidophoros.

The Resource Center will be regularly updated with new content and will provide guidelines and suggestions for parishes to take into consideration as they face a changing financial reality and strive to meet the new needs within their communities.

The Greek Orthodox Archdiocese of America COVID-19 Resource Center is located

at www.goarch.org/covid19.
