Archbishop of Cyprus praises cooperation with govt

Archbishop of Cyprus, His Beatitude Chrysostomos, this week praised his and the Church's cooperation with Cyprus President Nicos Anastasiades and the entire cabinet on the eastern Mediterranean island republic, in statements to the Cyprus News Agency.

"Our goal, the compass of our actions is the well-intentioned best interests of our flock," His Beatitude said.

Archbishop Chrysostomos said the Cypriot government is well-aware of the Church of Cyprus' positions regarding coronavirus-related restrictions and precautions to prevent the spread of the virus, therefore, the Church will avoid doing anything that will be perceived as allowing the virus to spread.
