A small token of gratitude to heroic doctors

His Grace Bishop Arsenije of Nis visited the Clinical Center in Nis on 13th August 2020.

On that occasion, His Grace had a conversation with PhD doctors: Vladan Cosic, Deputy General Director; Goran Stanojevic, Assistant Director for Professional Medical Matters and Surgery, and Nikola Milenkovic, specilized epidemiologist.

The doctors made familiar His Grace with the results of their fight against the Covid-19. Since the outbreake of the pandemic, the doctors of the Clinical Center Nis have invested a lot of commitment, love, sacrifice and professional knowledge to help patients suffering from the virus.

Recognizing the efforts and struggle of doctors with the pernicious virus, His Grace Arsenije donated packages of water and refreshing drinks, coffee and other foodstuffs to the committed medical workers in the Covid ambulance to refresh themselves during their hard work in long shifts.
