

Latest update regarding the health condition of His Holiness Serbian Patriarch Irinej

His Holiness Serbian Patriarch Irinej has been hospitalised in “Karaburma” Military Medical Centre due to the confirmed infection caused by SARS CoV2.

Early in the morning of 15 November 2020 symptoms and signs of worsening of the chronic cardiac insufficiency became observable. After the implemented medical treatment, His Holiness’ health condition has been stabilised. The team of medical experts has been continually monitoring health of His Holiness Serbian Patriarch Irinej.

On behalf of the team of medical experts
Colonel Ivo Udovičić, Assistant Professor
Hospital Commander in Chief
