

Assembly of Bishops announces new directory of Orthodox Christian Mental Health Professionals

The Mental Health Task Force of the Assembly of Canonical Orthodox Bishops of the United States of America accomplished its first major task by publishing a comprehensive and unified Directory of Orthodox Christian Mental Health Professionals. The Directory includes Eastern or Oriental Orthodox Christians verified to be in good sacramental standing by their parish priest or local bishop. The interactive directory allows users to search by zip code for Orthodox Christian mental health providers licensed to practice in their state. The directory offers useful details about each provider's area of practice, as well as contact information.

As an ever-growing directory, the Task Force invites mental health providers who are licensed to practice by their state and in good standing in their parishes to apply to be included in the Directory.

The Assembly of Bishops recognizes the value of mental health services and encourages the clergy and faithful to seek help in times of need. [To access the directory, as well as the provider application, click here.](#)

The Assembly of Bishops, comprised of the 51 canonical Orthodox Bishops in the United States of America, is the premier and official forum for Orthodox Christian Unity in the United States of America. Its purpose is to preserve and contribute to the unity of the Orthodox Church by helping to further her spiritual, theological, ecclesiological, canonical, educational, missionary and philanthropic aims.
