Productions by St. Maximus the Greek Institute posted every evening on online platform Pemptousia

The online platform Pemptousia and the Orthodoxia news agency, beginning today, will post documentaries, features and news footage from the archives of the St. Maximus the Greek Institute, with a new item posted every day at 9 p.m. Athens time.

Videos include a procession of the Holy Cincture of the Theotokos, the Virgin Mary, to various cities around Greece in the past; along litanies performed by Athonite Monks and a documentary on the Grotto of the Nativity in Bethlehem.

The audiovisual material to be posted every evening include productions of the St. Maximus the Greek Institution, and will form the basis of the soon-to-debut Pemptousia WebTV program.
