On this week's episode of "Live with the Louhs," a radio ministry of the Greek Orthodox Archdiocese of America, hosts Fr. Nicholas and his wife, Dr. Roxanne, a Clinical Psychologist, discuss Earth Day. They discuss the tremendous efforts that His All Holiness Ecumenical Patriarch Bartholomew, often referred to as "The Green Patriarch," has done during his time as the leader of our Church. The Louh's speak with Spyridoula Fotinis, who serves as the Coordinator of Programs for the Department of Inter-Orthodox, Ecumenical and Interfaith Relations of the Greek

Orthodox Archdiocese of America. She speaks about the work she is doing, under the leadership, effort and direction of Ecumenical Patriarch Bartholomew, to bring about awareness within our Church of the importance of preserving and protecting our planet. Then in the Louh Down, a portion of the show where Fr. Nicholas and Dr. Roxanne share practical tools to guide you in your walk of faith, the Louhs provide powerful principles that we can all apply today, to do our part to protect this Earth by realizing that, "the Earth is the visual Bible that God has gifted us." This is a show that you don't want to miss!!! Live with the Louh's airs every Sunday from 6:30-7:30 A.M on 77WABC radio in New York City or you can download the message afterwards by going to the radio's website at, <https://wabcradio.com/show/live-with-the-louhs/>. If you have any comments or questions for the Louhs, you can email them at [\[email protected\]](#). To find out more about the Louhs please visit their website at TheLouhs.com.
