TAKE A 360° VIRTUAL TOUR OF WARSAW'S ORTHODOX CATHEDRAL

Thanks to a new presentation on the official site of the Polish Orthodox Church, Orthodox faithful from around the world can easily tour the Metropolitan Cathedral of the Holy Equal-to-the-Apostles Mary Magdalene in Warsaw.

The 360° virtual tour provides a complete look at both the upper church and the lower chapel of the Passion of Christ.
The church, opened in 1869 to serve the needs of the growing Russian community, is one of only two free-standing Orthodox churches in Warsaw that were never destroyed or adapted for other purposes.

It serves as the cathedral for the Diocese and the Warsaw and is the main cathedral of the Polish Orthodox Church. It was officially entered into the register of monument in 1965.
