Halki Summit V – Sustaining the Future of the Planet Together

The Prophetic Ministry of Pope Francis and Ecumenical Patriarch Bartholomew
It is not coincidental for the Christian world—and vital for the protection of the environment—that the Pope and the Ecumenical Patriarch have issued joint statements on caring for God's gift of creation. His All-Holiness Ecumenical Patriarch Bartholomew published encyclicals and initiated conferences on ecological issues for more than thirty years. His Holiness Pope Francis published a seminal encyclical and publicly spoke on climate change from the outset of his ministry. Together the two leaders present a unified approach and prophetic voice on the inseparable relationship between sustainability of the planet and salvation of the world.

Speakers & Organizers
