The camps of the Orthodox Metropolis of Korea have reopened

With the help of God and the intercession of the 24 patron saints of the Orthodox Church in Korea, the youth camps of the Orthodox Metropolis of Korea in Chuncheon reopened this year on July 25, after the 2019 coronavirus interruption.

The central theme of the camp is: “Medicine of Immortality.” With the guidance of scriptural and patristic texts, the Staff wants to instill in our youth a deeper awareness of the unique importance of the Eucharist for their spiritual life.

The program includes morning and evening Services in the camp chapel, Bible Study, English lessons, lectures on spiritual edification, sports, hiking, museum visits, etc.
