Pemptousia has introduced a software application ‘Vimatarissa’

Beginning on July 24, the Pemptousia online platform has introduced a software application called ‘Vimatarissa’, named after the patronal icon of the Mother of God at the Holy and Great Monastery of Vatopedi, on Mount Athos.

With the Vimatarissa app, users can access the Internet and read the ‘Words of Life’ by the Fathers and Saints of the Orthodox Church on a daily basis, to their spiritual benefit.

The application can be downloaded from the AppStore or Google play.
