

Albanian Orthodox Church prays for political stability

Autocephalous Orthodox Church of Albania has reacted regarding the political crisis in the country.

Through a statement, it has stated that the more time it passes, the harder it gets for reconciliation and understanding to find its way into the conflict, which can seriously affect the current and future of Albania.

“We will heartily and humbly pray for the God of peace and wisdom to encourage the persons responsible for the running of the country to become aware of the importance of their duty they are given, so as to find the way to reconciliation and understanding and provide concrete solutions to all problems, for the good of our country and our people”, stated the Church.
