## The Annual Spring International Food Festival

On Pentecost Sunday, after the Divine Liturgy and Vespers of the Feast of the Holy Spirit, the community of Saint Nicholas Cathedral in Seoul organized its annual spring International Food Festival in the churchyard.

The wonderful weather as well as the delicious food and sweets that were offered brought many people to the festival area, many of whom had the opportunity to come into contact and acquaintance with the Orthodox Church for the first time and to be shown around the church building.

Many thanks go to everyone who volunteered or helped in various ways to make the festival a success. Moreover, warm thanks and many congratulations are due to the young men and women, Orthodox and Catechumens, for their dedicated efforts. All of them together worked hard before, during, and after the festival in a systematic and cheerful manner. Everyone who saw them was impressed and

deeply moved.

May the Holy Spirit, the Comforter, enlighten and comfort all of them and direct their steps toward all Truth.
