

## Major blood drive by Romanian Church

**A recent blood donation drive by the Romanian Church was again very successful, as the initiative took place for the sixth straight year since 2013, when it began.**

More than 16,000 liters of **blood** were collected from more than 30,000 volunteers.

The **Romanian Orthodox Church** began the initiative to boost **blood donations**, as the rate for Romania in the past was a very low 2 percent of the public.
